#### A SEVERE WINTER.

That is What All the Weather Prophets Say we will Have.

The Possums Have a Heavy Growth of Fur, Young Lambs are Grow. ing Wool, and Many Other Time-Honored Signs All Agree With the Weather Prophets.

All the predictions so far published all All the predictions so tar published all agree that we are to have an exceptionally severe winter. A great many doubt the infallibility of such predictions, but the subjoined ones are practically nuanimous in announcing a cold winter. They are from an Ohio farmer who says he has closely observed the doings of the weather for more than forty years: than forty years:

"Coons and possums have a heavy growth of far coming on. The chipmunk and the squirrel are the busiest little animals in the world. The in-ects have left the north side of the trees in the woods, as you will notice, and the f athers on the geese are heavier than ever before. My young lambs are growing wool that seems marvelous, and sheep that wood that seems inavelous, and steep that have been sheared are rapidly regaining their fleece. These signs were visible in 1857 and 1858. Another sign of a hard winter is the large hazelnut crop. This means also that lots of boy babies will be born to take the

clace of those who will be killed in the com ing war."
"That prediction is followed by others of the same import from all parts of the conntry. However, this is not an unusual occur-rence at this season, because it is just the time of the year when the prophets are busiest, and nine years ort of ten they insist that

very cold weather is coming.

An Indiana man comes to the front with the announcement that corn husks are thickthe amouncement that corn husks are thicker this fall than usual, which, he says, is as unifolible sign that there will be cold weather during January and February. Boston's most famous modicial prophet says that he has been a close observer of the English sparrow for years, and that the birds, which abound in the vicinity of Boston Common, are growing feathers on their legs. There is no boubt in his mind that this is a sign of an extremely cold winter.

Will bring out the winter, St. Martin's Day to live in January. If ice will bring out the winter, St. Martin's Day of the indian summer. If ice will be are man before Christmas it will not bear a mouse afterward. The three days of September 20, 21, 22 rule the weather for believe him perfectly honorable in all business transaction and financial by able to carry out any obligations between December 25 and January 5 are the keys to the weather for the twelve months of the coming three months. The twelve days have how the perfectly honorable in all business transaction and financial by able to carry out any obligations made by their firm.

West & TRUAK, Wholesale Druggists, Toledo, O. an extremely cold winter.

is a saying that may be heard fr. quently in Pennsylvania. An old time weather sign was the activity displayed by the beavers in laying in a extra large supply of winter food a month earlier than usual when a cold sea-son was at hand. Similar activity on the part of bears gave warning of a severe season to the hunters in early days. Bear tracks after the first fall of snow indicated a mild winter. In the fall before a cold and early Edwin Reed vs W. H. Mitchell et winter chipmunks are unusually abundant They are always housed by October 1. I fere a mild winter, however, they are to een as late as December 1.

The farmers say that when cows bellow in the evening it is safe to look out for snow during the night. When cattle collect near the barn long before night and remain hud-25 47 dled near it until late in the morning, a

severe winter is coming.

When the donkey blows his norr

"If on Candle-610 13 mas Day (February 2) it is bright and clear 164 65 the groundhog will stay in its den, thus in-dicating that more snows and cold are to come, but if it snows or rains he will creep out, as winter has ended," is responsible for the popular superstition regarding ground

12 50 hog day.

Rural observers assert that hogs gather and store straws, leaves and hay before cold weather sets in. If a mol digs a hole two and a half feet deep, it is an indication that a very severe winter is at hand; if the hole is two feet deep, the cold will not be quite so

> If the November goosebone be thick, So will the winterweather be: If the November goose bone be thin, So will the winter weather be. If the bone is red or has many red spots, expect a cold an 1 stormy winter; but if only a few spots are visible, the winter will be

J. C. Surr & Co., interest 12 50 mild.

An authority says that the saying: Everything is lovely and the goose hawk high?"—
not "hangs high," as it is frequently quoted—
is a weather proverb, meaning that when wild geese fly high it is a sign of fair weath

Highest of all in Leavening Power .- Latest U. S. Gov't Report.

If birds in autumn grow tame
The weather will be to cold for game.
Turkeys perched on trees and refusing to
descend indicate snow to the initiated. When
wild ducks fly to the south it is a sign that
winter is coming. When the wood-pecker
disappears in the fall look out for a cold
winter. When the Ivory-billed wood-pecker
goes to work at the bottom of a tree and
goes to the ton, removing all the outer

goes to work at the bottom of a tree and goes to the top, removing all the outer bark on his way, it is an indication that there will be deep snow. When wrens are seen in winter expect snow and plenty of it. A fog in February indicates frost in May.

An old saying is: "He t' at would have a bad day must go out in a fog after frost," and another is: "A winter's fog will freeze a dog." Bearded frost is a forerunner of snow. Frost that occurs in the dark of the moon kills fruit buds and blossoms, but frost in the light of the moon will not kill. Early frosts are usually followed by a long and hard winter. The first frost of the season, the farmers say, occurs six weeks after the

hard winter. The first frost of the season, the farmers say, occurs six weeks after the dirst song of the first karydid.

Heavy white frost is a sign that warmer weather is coming. Black frost is the forerunner of a spell of dry, cold weather. Bearded frost indicates a cold winter with much snow. Hoar frost is a sign of rain. Rural observers say that there will be as many frosts in June as there are fogs in February. Three whire frosts, they say, will bring a storm every time.

Christmas comes on Tuesday this year. Here is a curious stanza from the Harieian manuscript in the British museum:

If Christmas day on Tuesday be,

If Christmas day on Tuesday be, That year shall many women die, And that winter grow great marvels. Ships shall be in great perils. That year shall Kings and Lords be slain. And many other people near them. A dry summer that year shal! be, As all that are born therein may see. They shall be strong and covetou ou steal aught thou lowest thy life, hou shal the through sword or knife;

Thou shall turn to life again.
Old sayings have it that if All saints' Day rill bring out the winter, St. Martin's Day

the ensuing year.

If October is warm the following February will be cold. If October brings heavy frosts and winds January and February will be mild. Much rain to October indicates much wind in December.

"A green Christman makes a fall charge." "A green Christmas makes a full church-yard," is a familiar saying. Others are that a green Christmas makes a white Easter-per bottle. Sold by all Druggists. Im
